.NET Full Stack Developer | UI Developer | Application Support Specialist (L2/L3)

3+ years of Experience in Microsoft Technologies

Industries: Insurance, Logistics & Manufacturing

PROFESSIONAL SUMMARY

.NET Full Stack Developer with 3+ years of experience in designing, developing, and supporting enterprise applications using ASP.NET Core, C#, React.js, SQL Server, and Microsoft Azure. Experienced in L2/L3 production support, REST API development, application modernization, and Agile development. Skilled in troubleshooting production issues, optimizing application performance, and delivering scalable solutions.

PROFESSIONAL SKILLS

- | | | |
|----------------------------|---------------------------|-----------------------------|
| ➤ Software Dev Lifecycle | ➤ Product Development | ➤ Requirement Analysis |
| ➤ Research & Design | ➤ Deployment & Support | ➤ Incident Management |
| ➤ Maintenance & Monitoring | ➤ System Architecture | ➤ Documentation & Reporting |
| ➤ Client Interaction | ➤ Agile Scrum Methodology | ➤ IT Policies & Procedures |

TECHNICAL SKILLS

- **Backend:** .NET Core, C#, ASP.NET, ASP.NET MVC, ASP.NET Web API, LINQ
- **Frontend:** React, JavaScript, HTML5, CSS3, Bootstrap
- **Databases:** SQL Server, MySQL, NoSQL
- **ORM:** ADO.NET, EF & EF Core
- **Architecture:** Microservices, N-Tier Architecture, MVC
- **Cloud:** Microsoft Azure, AWS S3
- **DevOps & Tools:** Azure DevOps, Git, GitHub, GitLab, TFS, CI/CD Pipelines
- **ITSM Tools:** ServiceNow
- **Messaging:** Kafka, MSMQ
- **Monitoring, Debugging & Tools:** Postman, Visual Studio, VS Code, SSMS, Developer Tools, SonarQube, Azure & AWS
- **Methodologies:** Agile Scrum, ITIL, SDLC, DevOps Practices
- **AI & Developer Productivity Tools:** Claude, Copilot, ChatGPT, Cursor AI, Antigravity

PROFESSIONAL EXPERIENCE

Associate Software Consultant – NEXXOFT INFOTEL

June 2023 to present

KEY PROJECTS & RESPONSIBILITIES

Commercial Off-The-Shelf (COTS) Solutions

Oct 2024 – Till Date

Tech Stack: .NET Core, Web API, C#, MVC, React.js, Microservices, Kafka, SQL, ServiceNow, Git, Claude & MS Azure

Description & Responsibilities:

Food COTS is a strategic enterprise initiative by Tyson Foods to modernize and streamline business operations by transitioning from custom-built legacy applications to Commercial Off-The-Shelf (COTS) solutions.

- Delivered L2/L3 production support for enterprise-grade .NET applications (**MRS, FOPS, ESP, eShop, FMR, FMS, Liquid UI**), ensuring 99.9%+ availability for global users.
- Developed React UI & API Integration for **ESP** and **MRS** new Modules.
- Led incident management and root cause analysis (RCA), reducing recurring production issues and improving system stability.
- Performed advanced troubleshooting and bug fixing across application, API, and database layers.
- Implemented proactive monitoring, health checks, and log analysis, minimizing downtime and improving response time.
- Optimized SQL queries and database performance, improving response time for key business operations.
- Handled ServiceNow tickets (Incidents, Changes, Requests) in alignment with ITIL best practices.
- Collaborated with cross-functional teams (Business, QA, Infra, DB) to resolve high-priority production issues.
- Created and maintained knowledge base documentation, reducing resolution time and improving team efficiency.
- Ensured adherence to SLA, audit, and security compliance standards across all supported systems.

UFacts - Cloud Modernization

July 2023 – Sep 2024

Tech Stack: .Net Core, Web API, C#, React, SQL, Microservices, Kafka, Git Copilot & MS Azure

Description & Responsibilities:

UFacts is a web-based application used by government agencies to manage Unemployment Insurance programs — covering claims processing, employer tax management, benefits, and monetary/non-monetary determinations, with eligibility validated against employer details, work history, wages, and government policy rules.

- Contributed as a Full Stack Developer across backend, frontend, API integration, and database operations
- Developed REST APIs and implemented core business logic using ASP.NET Core Web API and C#
- Built and integrated React.js frontend components with backend services
- Wrote and optimized SQL queries for claims, benefits, and eligibility data
- Fixed production bugs and participated in sprint planning and Agile ceremonies

PERSONAL PROJECTS

BeatBox – Premium E-Commerce Platform

Tech Stack: ASP.NET Core, React.js, SQL Server, Entity Framework Core, Clean Architecture, JWT Authentication, Redux Toolkit, SignalR, Azure, AI Chatbot

Description & Responsibilities:

A full-stack e-commerce application built with ASP.NET Core and React.js, applying Clean Architecture and the Repository Pattern for a scalable, maintainable codebase.

- Developed REST APIs using ASP.NET Core Web API
- Built responsive React.js user interfaces with Redux Toolkit for state management
- Implemented JWT-based authentication and role-based authorization
- Integrated SignalR for real-time order updates
- Developed an Admin Dashboard for product and order management
- Applied Entity Framework Core with the Repository Pattern for data access

Revenue Metrics API – Multi-Source Data Integration Platform

Tech Stack: .NET 9, ASP.NET Core Web API, Clean Architecture, Entity Framework Core, PostgreSQL (Supabase), Background Services, REST APIs, Git

Description & Responsibilities:

A fault-tolerant data integration platform that syncs revenue data from HubSpot, Stripe, and Google Calendar, built with .NET 9 Clean Architecture for scalability and maintainability.

- Developed a fault-tolerant sync pipeline integrating HubSpot, Stripe, and Google Calendar.
- Implemented incremental synchronization with idempotent upsert logic.
- Built REST APIs for revenue summary and breakdown using .NET 9 Clean Architecture.
- Automated background synchronization using IHostedService.
- Containerized and deployed the application using Docker, PostgreSQL, and Render.
- Applied Repository Pattern and Dependency Injection.

EDUCATION BACKGROUND

- **Bachelor of Engineering** , King College of Engineering, Pudukottai, TN, India– (2019–2023) – CGPA: 8.01/10
- **HSC** , St. Joseph’s Matric Hr. Sec School, Thanjavur, TN, India – (2018 – 2019) – 63.8%
- **SSLC** , Kalyana Sundaram Hr. Sec School, Thanjavur, TN, India – (2016–2017) – 76.4%
